How does Referr Use Data from the Contacts Selected on My Device?

You may add contacts from Your device through the App consistent with the Terms of Use. By electing to add contacts in such manner, the Services access, import and use the applicable information selected by You. To use this feature, You agree that You have permission to upload the personal information of added contacts, taking into account contractual confidentiality, data privacy law, or other legal limitations to which the personal information may be subject. This data collected and processed by the App may be stored on our servers consistent with "Information Storage and Security" as provided below.

What Non-Personal Data Does Referr Collect and How is it Used?

When You use our App we may record unique identifiers associated with Your device (such as the device ID and IP address), Your activity within the App, and Your network location. Referr uses aggregated information (such as anonymous user usage data, cookies, IP addresses, browser type, clickstream data, etc.) to improve the quality and design of the Service and to create new features, promotions, functionality, and services by storing, tracking, and analyzing user preferences and trends. A cookie is a small text file that is sent by a website to Your computer or mobile device where it is stored by Your web browser. A cookie contains limited non-personal data, usually a unique identifier and the name of the site. When You access the Service, we may send one or more "cookies" to Your device. A "cookie" is a small line of text that is stored with Your browser, which we use to help provide better service to You. Your browser has options to accept, reject or provide You with notice when a cookie is sent. We may use cookies for many purposes, including (without limitation) to save Your password so You don't have to re-enter it each time You visit the Service, and to deliver content (which may include third party advertisements) specific to Your interests.

Will Referr Share Personal Data with Others?

You may choose to share Your information with other users of the Service via the App's functionality. This sharing will be initiated by You and not by Referr.

Referr does not sell Your data to third parties. Further, we will not share Your personal data with other, third-party companies for their commercial or marketing use without Your consent or except as part of a specific program or feature for which You have the ability to opt-in or opt-out.

We may provide personal data to Referr employees, consultants, affiliates or other businesses or persons for the purpose of processing such information on our behalf. For example, Referr uses a third-party credit card processor in order to facilitate purchases of gift cards. In such circumstances, we require that these parties agree to protect the confidentiality of such information and to comply in all respects with this Privacy Policy.

We may share non-personal data (such as anonymous User usage data, referring / exit pages and URLs, platform types, number of clicks, etc.) with interested third-parties to assist them in understanding the usage patterns for certain content, services, advertisements, promotions, and/or functionality on the Service.

In addition, we may release personal data: (i) to the extent we have a good-faith belief that such action is necessary to comply with any applicable law, enforce any provision of the Terms of Use, protect ourselves against any liability, defend ourselves against any claims, protect the rights, property and personal safety of any user or protect the public welfare; or (ii) to respond to a court order, subpoena, or search warrant.

Third Party Advertisers

We may allow other companies, called third-party ad servers or ad networks, to serve advertisements within the Service. These third-party ad servers or ad networks use technology to send, directly to Your device, the advertisements and links that appear on the Service. They automatically receive Your device ID and IP address when this happens. They may also use other technologies (such as cookies, JavaScript, or Web Beacons) to measure the effectiveness of their advertisements and to personalize the advertising content You see. You should consult the respective privacy policies of these third-party ad servers or ad networks for more information on their practices and for instructions on how to opt-out of certain practices. This Privacy Policy does not apply to them, and we cannot control their activities.

Information Storage and Security

We retain information as long as it is necessary and relevant to provide You with the Service. We also retain personal data to comply with applicable law, prevent fraud, resolve disputes, troubleshoot problems, assist with any investigation, enforce our Terms of Use, collect any fees owed and other actions permitted by law. After it is no longer necessary for us to retain information, we dispose of it according to our data retention and deletion policies.

We employ industry-standard security measures designed to protect the security of all information submitted through the Service. However, the security of information transmitted via mobile device and through the internet can never be guaranteed. We are not responsible for any interception or interruption of any communications through the internet or for changes to or losses of data.
